#5. Other Tips

If you are using Bulk Sender to send a lot of messages and you want to protect your WhatsApp account, we give the following advices:

1. If possible, do not use your personal account

2. Just try to use your new account for few days sending and receiving and after sending bulk from it.

3. **Send** account number (that you want use it to send bulk) as vCard from your personal account with friends and family ask them to save it and to message you on it

4. When you start send bulk from new account start with small bulks

5. Try to write message in a way that recipient do not report it as spam (this is the most critical issue with new accounts)

6. Try to use **Multi-Message** option on the application, which allow you to write same message in differentway.

7. Use **Spin Tax** feature to set an array of words with the same meaning (the program randomly will use them)

8. Use **anti block module** application in **Settings** (add your numbers and your friends' number that you usually chat with them and set initiate dialog with them after x number of messages)

9. Give your account more credibility by joining groups

10. From Settings, in Bulk Sender, set a small **delay between messages**.

#6. HOW TO REDUCE BAN RISK BY WHATSAPP?

If you are using Bulk Sender to send a lot of messages and you want to protect your WhatsApp account, we give the following advices:

To avoid the blocking of numbers

- Send to known contacts only. Don't use for spamming.
- Don't send from your personal number.
- Don't send to more than 50 people in one shot.
- Don't send more than 500 people in a single day
- We are not responsible for any account block.
